## Before you collaborate

A little bit of preparation goes a long way with this session. Here's what you need to do to get going.

10 minutes

### Team gathering

Define who should participate in the session and send an invite. Share relevant information or pre-work ahead.

### Set the goal

Think about the problem you'll be focusing on solving in the brainstorming session.

### Learn how to use the facilitation tools

Use the Facilitation Superpowers to run a happy and productive session.

1

## Define your problem statement

What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.

5 minutes

PROBLEM  
How might we [your problem statement]?

### Key rules of brainstorming

To run a smooth and productive session

- Stay in topic.
- Encourage wild ideas.
- Defer judgment.
- Listen to others.
- Go for volume.
- If possible, be visual.

2

## Brainstorm

Write down any ideas that come to mind that address your problem statement.

10 minutes

TIP  
You can select a sticky note and hit the pencil [switch to sketch] icon to start drawing!

**SOBIYA**  
Building a safe and secure software for user  
Accuracy in translation  
Fast answer and accuracy in responses  
Language used to deliver the best simple  
Sometimes may convey the message in medical text  
Make abstract new text a more concrete response in medical text

**MANI KANDAN**  
Working with different team of work department  
Algorithm cannot be updated  
Eloquent and efficient collaboration  
Developing custom based on circumstances  
Feedback from customers for improvement  
Better point of control services

**MADHVESH**  
The data cannot be used for any emergency case  
It should follow the standard sign language  
System cannot be updated  
Translation should defaultless  
Collect various data necessary for training and testing  
A solution to rescue team about how daily tasks

**GLADSON**  
Creating user interface with complex with people  
Creation leads to high cost  
Small error leads to total failure  
Allocating time and sharing the resources information  
Evaluation must be repeated in each step  
Improve inspection with data  
Research should based in data which perspective  
Available at all time

3

## Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. In the last 10 minutes, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you can break it up into smaller sub-groups.

20 minutes

**ADVANTAGES**

- Better point of control service
- As soon as you can be used any emergency case
- Language used to deliver the best simple
- Creating an interface with complex with people
- Expert and efficient collaboration
- Fast answer and accuracy in responses
- The data cannot be used for any emergency case
- It should follow the standard sign language
- System cannot be updated
- Translation should defaultless
- Collect various data necessary for training and testing
- A solution to rescue team about how daily tasks
- Creating user interface with complex with people
- Creation leads to high cost
- Small error leads to total failure
- Allocating time and sharing the resources information
- Evaluation must be repeated in each step
- Improve inspection with data
- Research should based in data which perspective
- Available at all time

**DISADVANTAGES**

- Creation leads to high cost
- Cannot be updated once created
- Algorithm cannot be updated
- Sometimes may convey the message in medical text
- Small error leads to total failure
- More amount of time is required to create

**CONDITIONS**

- Reserve the control by the user
- It should follow the standard sign language
- Evaluation must be repeated in each step
- Developing custom based on circumstances
- Feedback from customers for improvement
- Accuracy in translation is a key point

TIP  
Add customizable tags to sticky notes to make it easier to find, browse, organize, and categorize important ideas as themes within your mural.

4

## Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

20 minutes

## After you collaborate

You can export the mural as an image or pdf to share with members of your company who might find it helpful.

### Quick add-ons

#### Share the mural

Share a view link to the mural with stakeholders to keep them in the loop about the outcomes of the session.

#### Export the mural

Export a copy of the mural as a PNG or PDF to attach to emails, include in slides, or save in your drive.

### Keep moving forward

#### Strategy blueprint

Define the components of a new idea or strategy.

[Open the template](#)

#### Customer experience journey map

Understand customer needs, motivations, and obstacles for an experience.

[Open the template](#)

#### Strengths, weaknesses, opportunities & threats

Identify strengths, weaknesses, opportunities, and threats (SWOT) to develop a plan.
